

YEARS 11 - 12

BECOMING EXPERTS

A collection of dynamic development programs focusing on our future leaders and exploration of core competencies and their specific senior subjects. Phillip Island is a mecca for enriching classroom learning into practice throughout senior year levels.

Senior Year level programs and Vocational Education Programs are designed to compliment and provide practical experiences for student's learnings. They are all tailored to the subject of concern and can include, but not limited to:

**History | Geography | Environmental Sciences | Outdoor Education
Health & Wellness | Leadership & Celebration**

This can include national park research, deeper understanding and enquiry into ecological principles, land conservation, farming, indigenous and cultural history impacts on future generations and load more...

Further development into human psychology, leadership, teamwork, increased social and emotional intelligence, empathy and multiple intelligence areas are other learning outcomes. Along with a high range of social, emotional and cognitive learning outcomes, comes the ethical, cultural, communication and other high-end skills.

**HEALTH & WELLNESS RETREATS, HIGH PERFORMANCE SPORTS CAMPS,
MUSIC CAMPS & ACCOMMODATION ONLY OPTIONS AVAILABLE**
